

Woven tapes, cords and ladder strings

Textiles for wooden blinds

OUR PRODUCTS KEEP WHAT WE PROMISE.

Aesthetics meets durability. Function meets design. Our tapes and cords are high-tech textiles that meet premium requirements. This is what Julius Koch stands for with more than 125 years of experience in the field of textile solutions.

Developed for customizing.

Our textiles are made of strong solid polyester and therefore particularly suitable for long-term use. The material has a matte finish, to achieve a rich cotton look and clear colours. The colours shown in this catalogue correspond to our standard colour range. However, we can of course produce individual colours on request. Challenge us.
